ABOUT ME

Passionate Electronics and Communication Engineering student with a strong interest in technology, innovation, and problem-solving. Skilled in programming, frontend development, and building academic and hackathon-based projects, with hands-on experience in both hardware and software domains. Associate of IVC , eager to explore emerging technologies and contribute to impactful real-world solutions through creativity, collaboration, and continuous learning.

EDUCATION

Bachelor of Engineering in Electronics and Communication Vidya Vardhaka College of Engineering Mysuru | 2025 - 2029
CGPA 1st year : 8.88

HACKATHONS AND COMPITATIONS

Shark Tank | NIT Warangal , Telangana

Idea pitching Event | Christ University , Bangalore

Technotsav 24 Hours Hackathon | VVCE , Mysuru

Designed and developed a smart grid solution focused on efficient energy distribution and power monitoring. Contributed to the planning, development, and execution stages of the project.

Thermospark 9 Hours Hackathon | VVCE , Mysuru

Developed a web application that utilized location and temperature data to suggest effective heat reduction measures. Participated in the development and execution of the project during a 9-hour hackathon sprint.

IQEdge 24 Hours Hackathon | Dayananda Sagar University , Bangalore Developed FestFlow, a hardware and software-based smart wristband designed to assist users during emergency situations. Integrated safety-focused features to enable quick alerts and improve emergency response efficiency.

PROJECTS

Athergrid : Smart grid solution focused on energy-efficient power distribution and real-time monitoring systems.

Vayucool : Web application utilizing location and temperature data to suggest effective heat-reduction strategies and environmental solutions.

FestFlow : Smart emergency-assistance wristband integrating hardware and software features for quick alerts and improved user safety during critical situations.

CollabNest : A collaborative platform that connects people with ideas to people with skills, enabling teams to build meaningful projects together from start to finish.

FinPilot : An AI-powered FinTech platform for smart personal finance management and personalized financial insights.

SKILLS

Programming: C, Python, JavaScript

Frontend: HTML, CSS, React

Tools: GitHub, VS Code, Supabase

Soft Skills: Communication, Teamwork, Problem Solving

WORKSHOPS

Autonomous Vehicles Workshop | Aavishkaar Tech Conclave 2026, VVCE

GitHub & Version Control Workshop | IVC Club, VVCE

IISc Open Day 2026 | Indian Institute of Science, Bangalore

CERTIFICATES

ISRO START: ISRO - 2026

Introduction to Electronics: Georgia Institute of Technology - 2026

Artificial Intelligence an overview: Politecnico di Milano- 2026

C Programming: Dartmouth College and Institut Mines Télécom - 2025

Basic Engineering Mathematics: BITS Pilani - 2026
